3-port 10/100M PoE Extender

(ONV-PSE-PD3102)

OVERVIEW

The ONV-PSE-PD3102 is an unmanaged PoE extender with 2*10/100M RJ45 ports and 1*10/100M uplink RJ45 port. Port 1-2 supports IEEE 802.3 af/at PoE standard. Single-port PoE power max is 30W and PoE output power max is 24W. The uplink port is a power receiving port and the input power must be greater than 24W to meet the PoE power supply requirements of port 1-2. As a PoE power supply device can automatically detect and identify powered devices that meet standards and power them through network cables. It can supply power to PoE terminal equipment such as wireless AP, IP camera, Internet phone, and video door intercom through network cables, meeting the network environment that requires a high-density PoE power supply and solves twisted-pair PoE transmission within a range of 200 meters without loss of bandwidth. application. It is suitable for hotels, campuses, parks, scenic spots, factory dormitories, and SMB small and medium-sized enterprises to establish cost-effective networks.

Unmanaged mode, plug and play, no configuration, easy to use.

FEATURE

■ 10/100M access, Uplink power receiving port

- ◇ Support non-blocking wire-speed forwarding.
- ◇ Support full-duplex based on IEEE802.3x and half-duplex based on Backpressure.
- ◇ 3*10/100Base-TX RJ45 ports to meeting the power supply and transmission requirements of the scene within 200 meters.

■ Intelligent PoE power supply

- ◇ 2*10/100Base-TX RJ45 ports support PoE power supply to meet the needs of PoE power supply in various security scenarios.
- ◇ Complies with IEEE 802.3 af/at PoE standard and automatically identifies PoE devices for power supply without damaging non-PoE devices. The max PoE output power is 24W, and single-port max PoE output power is 30W.

■ Stable and reliable

- ◇ CCC, CE, FCC, RoHS.
- ◇ Low power consumption, fanless quiet design, metal shell, excellent heat dissipation.
- ◇ PoE extender does not require an external power supply when working and can solve network cable transmission within 200 meters.
