36-port 10G Uplink Managed Industrial PoE Switch
(ONV-IPS58036PFM)

OVERVIEW

The ONV-IPS58036PFM is a 10G uplink managed industrial PoE switch independently developed by ONV. It has 24*10/100/1000Base-T adaptive RJ45 ports and 8*100/1000Base-X SFP fiber combo ports and 4*1/10G uplink SFP+ fiber ports. Port 1-24 can support IEEE 802.3 af/at PoE standard and single port PoE power reaches 30W. As a PoE power supply device, it can automatically detect and recognize the power-receiving equipment that meets the standard and supply power through the network cable. It can supply power to PoE terminal equipment such as wireless AP, IP camera, VoIP, and industrial sensors through the network cable, and meet the network environment that needs a high-density PoE power supply. It is suitable for intelligent transportation, rail transit, power industry, mining, petroleum, and industrial scenes such as shipping, metallurgy, and green energy construction forming a cost-effective, stable, and reliable communication network.

ONV-IPS58036PFM has L3 network management function, supports IPV4/ IPV6 management, dynamic/ static routing forwarding, complete security protection mechanism, perfect ACL/ QoS policy, and rich VLAN functions for easy management and maintenance. It supports multiple network redundancy protocols STP/ RSTP/ MSTP (<50ms) and (ITU-T G.8032) ERPS (<20ms) to improve link backup and network reliability. When the one-way network fails, the communication can be quickly restored to ensure the uninterrupted communication of important applications. According to application needs, PoE power
